Custom Peer Group Report

Looking for customized data? Do you need a better understanding of how you compare to your peers? Our custom peer group reports allow you to select survey data on a subset of participating organizations to gain a more targeted perspective on compensation data and trends for organizations of similar size, industry, revenue, or geographic location (one custom peer group report is included in the membership fee, a \$575 value).

When Will I Receive the Survey Results?

The survey report will be published the week of July 3, 2017. The data effective date for the survey is April 1, 2017 and all data should be submitted by April 28, 2017.

All of this provides you with the most accurate, affordable, reliable data that you can use to attract and retain your most important, and often most expensive, asset.

How Can I Participate?

Work with a Dedicated Survey Account Manager

You will be assigned a dedicated account manager who will be available to walk you through the survey submission process, making it easy to integrate and match your information with our database. Our account managers have several years of survey experience, ensuring you the highest level of data quality and integrity.

Your survey account manager will email you a link to the submission materials, your log-in credentials, and instructions on how to complete and return your survey data.

Why Pearl Meyer Surveys?

Our Promise to You

Our objectives are simple:

- Provide the highest quality compensation information available anywhere
- Include the benchmark competitors you need
- Offer you a survey experience that is as easy as possible

Our Commitment to Quality

We are committed to providing you the highest standard of quality reporting, surpassing all other global technology surveys in the industry. Our rigorous quality assurance process includes:

- Job matching guidelines that contain clear and concise job descriptions and level guide matrices that contain education and experience profiles, typical population distributions, and scope definitions.
- Distribution of quality assurance reports to help clarify input and identify discrepancies.
- Thorough cross check of data; comparison to previous years' data; and identification of data outliers.

Secure Data Submission and Confidentiality

The survey is administered using an excel template for the collection of incumbent job data and a secure online questionnaire for policies and practices data. Cyber security is a top priority for any organization and you can have peace of mind that your data will be uploaded into a secure environment.

Concerned about the confidentiality of your data and how it's shared in the survey results report?

- All data is reported in summary form only.
- No data is reported for any job at any level where there are less than five companies matching (3 company limit is used outside the U.S.).
- No organization's data will represent more than a 25% weighting for any job (35% weighting is employed outside the U.S.).
